SUBJECT: DOCUMENTATION REPORT ON PROBLEM IDENTIFICATION ANALYSIS PRIORITY SETTING HELD AT DENR-PAO, CONFERENCE ROOM, OROQUIETA CITY.

Respectfully forwarded to your end is the documentation report on the Problem Identification Analysis Priority Setting held at DENR-PAO, Conference Room, Oroquieta City last June 17, 2016.

Please be informed that it was actively participated by Brgy. Captains, Tribal Chieftains, PO presidents and secretaries of four (4) barangays; Small Potongan of Concepcion, Brgy. Lake Duminagat of Don Victoriano, Brgy Carmen of Jimenez and Barangay Kanao-kanao of Bonifacio Misamis Occidental. the purpose of the activity are the following to wit:

- 1. To determine the problems of each identified barangay and provide possible solution which could help alleviate their living condition.
- 2. For the identified barangays as situated in the bufferzone of Mt. Malindang Range Natural Park will serve as vanguard to end man-made destruction of environment.
- 3. To build camaraderie between DENR and Organized ILCs.

Attached herewith are the attendance sheet and Photo documentation of the event.

PHOTO DOCUMENTATION

Photo showing PENRO Belen Daba gave her warm welcome message and thanked all participants for answering the invitation letter for the activity. She extended her appreciation to the ILCs for continuously supporting the DENR's endeavor.

As much as the Office wanted to totally stop the destruction of the Environment and to make ILCs productive, the DENR-PENRO, Misamis Occidental with the supervision of the PENR Officer, proposed to have an alternative livelihood to uplift the economic status of the ILCs.

SP Dodge Cabahug, Indigenous People Mandatory Representative, giving his message to the Organized Indigenous Local Community. He also thanked the DENR for always supporting their tribe especially the programs which benefited by the tribe.

Photo showing For. Eden C. Pito discussing the PIAPS or the Problem Identification Analysis Priority Setting. In this activity, the ILCs were tasked to list down the problems they have in their community. After which, problems they have listed were arranged according to their priority. The top priority problem will be given possible solution by the DENR.

Identified Problems of participated Barangay

During the arrangement of the identified problem of each barangay, all have chosen livelihood as their priority. In addition, all suggested livelihood were assessed in their convenience.

Kalatungan Kabigaan Aquino Farmers Association Inc. had chosen Corn production with fertilizer.

Hugyawan sa Kabukiran Lumad Subanen Coop. of Brgy. Kanao-kanao selected high-valued crops

Abaca Production for the Small Potongan Farmers Association

Women's Association of Lake
Duminagat said that they will continue their
Callalily production and they suggested that
they will include draft animal with plow in their
livelihood.

Part of the activity was the commitment of the ILCs for the management of Ecotourism Facilities. They may be authorized by the Protected Area Management Board (PAMB) to collect add-on entrance fees, over and above the allowed fees to be shared by the POs, Barangays and Municipalities under the equity sharing of benefits a concept on activity that will be undertaken by tourists.

All participating Barangays committed to join the safeguarding of the ecotourism facilities with the Barangay Council; **Small Potongan** suggested that ecotourism Facility in their area will be managed by the residents of the barangay and be supported by Farmers Organization. Meanwhile, **Barangay Carmen** suggested that their PO will manage the proposed ecotourism facilities in the area (additional look-out tower will be put-up in Sitio Aquino, Brgy Carmen, Jimenez).

Suggested fees are the following for Lake Duminagat Tourist:

Entrance (PAMB permit): professional= Php 50

Students= Php 25 Foreigner= Php 250

Entrance (Ecotourism Facilities): Visitors Center= Php 20/ head

Camping Site= Php 50/ head

CR = Php 5/ head

Accordingly, 10% of the collection will be shared to Barangay, another 10% to the MLGU and 10% to their Association. The remaining percentage (70%) will be shared to Integrated Protected Area Fund (IPAF).

Hugyawan sa Kabukiran Lumad Subanen Coop. of Brgy. Kanao-kanao :

Entrance (Ecotourism Facilities): Php 30/head

Barangay, MLGU and PO will be given a share of 10% each, 4% to the Ecotourism Facilities' maintenance and remaining 66% will go to IPAF.

For Barangay Carmen:

Entrance (Ecotourism Facilities): Php 30/ head

33.3% will be shared to PO, Barangay and MLGU.

***NOTE: IPAF collection was not included.

Brgy Small Potongon suggestions for ecotourism facilities fees:

Entrance (Ecotourism Facilities): Php 25/ head

40% will be shared to PO and Barangay while 5% will go to MLGU.

***NOTE: IPAF collection was not included.

All foregoing proposals will be discussed by the Sub-Committee on Ecosystem and Education for presentation to PAMB Exe. Com. with recommendations.

Commitment/ Agreement Signing

To strengthen the relationship of the PAO and each Organized ILCs, a commitment/agreement signing was also conducted during the activity (said commitment/ agreement will be submitted to PAMB) for approval.
