Provincial Capitol, Oroquieta City

Program I Ecosystems Management

Goal: to maintain ecosystems in their natural state, or to restore them where they have been damaged.

A system of zones will be established in accordance with NIPAS law (strict protection; sustainable-use; restoration; habitat management; multiple-use; recreation; cultural).

Carefully designed sub-zones will be established in the buffer zone to encourage appropriate land-use. Zoning personnel from the park staff will negotiate the boundaries of each zone with the local community and establish an agreed set of regulations for each zone.
