#### ***Program IV Stakeholder Awareness***

*Goal: to ensure that all those who hold a stake in the park support its mission and work towards it.*

Awareness in stakeholder cities and municipalities will be tackled through (1) senior LGU leaders with a series of senior seminars and by making key statistics and other park information easily available to them (2) schools, by special seminars for teachers and assisting with teaching aids (3) periodic seminars for broadcasters and members of the press (4) initiation of an MMNP internet web site.

Park local communities will be tackled through regular public meetings with baronage leaders on-site and by making sure that full local information of park activities is always a publicly available.

Normal reporting channels to DENR and others at regional level upwards will be reinforced through provision of regular executive summaries of park activities and regular special briefing visits.
