Program VII Regional Integration

Goal A: to represent the park and its interests in regional and wider-level programs in which it is a stakeholder, and to promote needed programs where they do not exist.

Possible development and developers will be inventoried and liaison initiated and maintained to ensure that the parks interests are considered from the outset in all development. Compliance with EIA will be monitored. The park will participate in provincial land-use development and on municipal land-use planning boards.

Goal B: to prevent creation of growth centers in the buffer zone or otherwise near the park.

This goal largely covered elsewhere in the plan. In addition any unauthorized development will be reported and appropriate legal action taken.
